## New Price List

An update to the Cloud Electronics Price List - Feb 2013 will be published very soon. To ensure you receive your copy - email - [marketing@cloud.co.uk](mailto:marketing@cloud.co.uk)

## Did you Know?

The new Cloud LM-2 / LM-2A offers a 'link' function. The link function allows a second LM-2 to be added to each zone where a first LM-2 is installed.

The second LM-2 / LM-2A is connected via screened cat-5 cabling to the first LM-2 / LM-2 which in turn is connected to the new Z4 / Z8 MK3 Mixer or 46/120 Mixer Amplifier.

The 'link' function provides increased flexibility for larger zones as it allows an alternative input or control point location to be added per zone.

Further information for the Cloud LM-2 / LM-2A is [available here!](#)

## Stardraw Design 7

We are pleased to announce that the [Stardraw Design 7](#) Symbols Library has been updated with a large number of products from Cloud Electronics in pictorial, rack and block format. Further information is [available here!](#)

## New Z4 / Z8 MK3 Zone Mixers

The latest upgrade to the ever popular Z4 / Z8 Series of Zone mixers includes transition of the microphone input connectors from XLR to 3-pin phoenix connectors and replacement of the Facility Port connector to RJ-45 connection. The new Facility Port connector allows easier connection of the new Cloud LM-2 / LM-2A Active Wall Plate per zone.

The new Cloud Z4 and Z8 MK3 Zone mixers will be shipping by the end of September 2013. A pre-release data sheet for the new Cloud Z4 / Z8 MK3 can be [downloaded here!](#)

## New LM-2 / LM-2A Active Wall Plate

The New Cloud LM-2 / LM-2A Active Wall Plate continues where the LM-1 began, with the addition of a 3.5mm stereo input socket on the front panel allowing easy connection of portable devices and two RJ45 (Cat-5) sockets on the rear panel. These new features are in addition to a microphone input with local level control, an RCA stereo input with level control and source selection / level control from the installed system (Z4 / Z8 MK3).

The new LM-2 / LM-2A Active Wall plates will be shipping Q4 2013. Further Information for the LM-2 is [available here!](#)

## New DCM-1e Ethernet Eight-Zone Mixer

A new portable-device friendly GUI / user interface for the new Cloud DCM-1e allows almost full control and configuration of the DCM-1e via devices on the same network, in addition to laptop / PC connectivity.

The new Cloud DCM-1e Ethernet Zone Controller will be shipping by the end of September 2013. Further Information for the DCM-1e is [available here!](#)

## New 46/120 4-Zone Mixer Amplifier

The exciting new 46/120 4-Zone Mixer Amplifier and 46/120 Media 4-Zone Mixer Amplifier are currently undergoing final design processes and stringent testing to ensure they meet the quality and reliability that is assumed with all Cloud Electronics products and should be passed for production very soon!

The new Cloud 46/120 and 46/120 Media will be shipping in Q4 2013. Further information for the 46/120 is [available here!](#)

*Thank you for your continued support and interest in Cloud Electronics products.*
