

## Infocomm 2012

Las Vegas, NV, USA

Cloud is exhibiting at Infocomm 2012 in Las Vegas, NV, USA from 13th to 15th June 2012.

A new version of the DCM-1 Digital Zone Mixer with ethernet and device control capabilities will be on demonstration along with a new series of USA designed remote control wall plates.

If you are attending the show you will find the Cloud Electronics stand at C11944. We look forward to welcoming you at the show.

## Audex 2012

Etihad Stadium, Manchester

Cloud is exhibiting at Audex 2012 at the Commonwealth Suite at the Etihad Stadium in Manchester on 27th June 2012.

## Did you Know?

PM-Series Paging Microphones

The Cloud PM-Series of multi-zone paging microphones can be connected easily to Cloud digital mixers and zoners, but they can also be connected and used with other manufacturers' products too.

## New Training Video

Cloud PM-SA Paging Microphones

## Testimony to Longevity

Cloud CX-M Mixing Console

During a recent series of Cloud product training seminars in Germany organised by S.E.A Vertrieb & Consulting, local Cloud dealer Peter Schunke arrived carrying with him a Cloud CX-M Mixing Console. The CX-M mixer proved to be more than 17+ years old but still in full working order. It transpired Peter has been selling Cloud Electronics products for more than twenty years with his enthusiasm for the brand stemming from the reliability of Cloud products.

Although the Cloud CX-M Mixing Console ceased production in 1998 it certainly paved the way for today's product portfolio from Cloud Electronics. The CX-M mixer featured a zone module for controlling audio in separate zones and a remote music mute interface currently used in all of Cloud's current zone-mixer range.

The Cloud product training seminars in Germany, attended by consultants, integrators and dealers were held over five days in Hamburg, Berlin and finishing in Hannover. Torsten Roeger from S.E.A Vertrieb & Consulting commented 'It has been great fun demonstrating the capabilities of Cloud products during the seminar tour as we explore further opportunities to expand the sales of Cloud products in Germany. The seminars have been very well received and we hope to repeat the seminar tour again in the Spring of 2013'.

## 20 Years of Service - Thank You

Production Manager - Michael Foster

Congratulations were due during May 2012 to Michael Foster who celebrated 20 years in service at Cloud Electronics Ltd. Michael is the Production Manager for Cloud Electronics responsible for the procurement of all components and production planning for all of Cloud products.

A celebratory lunch in Michael's honour was organised on the day followed by the presentation of a silver plate by Cloud Electronics' owners Simon and Clare Curtis in recognition of Michael's service.

Well done Michael may your great work continue for another 20 years!
