

# Tour Guide System

Bus / Tram / River Cruise

Compact audio system operating on a 12-24V DC power supply ideally suited for installation into tour guiding vehicles. The function panel input provides remote mic input with dedicated level control whilst the two line inputs can be used for video and music player sources. The MA40 provides 40W Low-Z speaker output, which (in this example) are connected in series / parallel configuration to achieve maximum coverage.
